STRATEGIC THINKING

1. Futuristic®

What Is Futuristic?

People with strong Futuristic talents love to peer over the horizon. They are fascinated by the future. They anticipate and imagine in detail what tomorrow could or should be. They usually see the future positively. While the details of the picture will depend on their other strengths and interests — a better product, a better team, a better life or a better world — it will always inspire them. This vision energizes themselves and others. They can paint a picture of the future for their team members.

Why Your Futuristic Is Unique

These Strengths Insights are personalized based on your CliftonStrengths results.

Futuristic**Strategic****Activator****Ideation****Self-Assurance**

Driven by your talents, you prefer to spend time with visionaries. Why? You probably enjoy listening to them describe innovative products, labor-saving devices, medical possibilities, or new ways of governing. Thinking about only the present usually bores you.

Instinctively, you ordinarily share your ideas about what can be accomplished in the coming months, years, or decades. The many kinds of people you invite into your life often are inspired by your forward-looking plans, proposals, inventions, or suggestions for change.

Because of your strengths, you spend a lot of time creating innovative ideas about what will be possible in the weeks, months, years, or decades to come. When you concentrate on your areas of mastery, you frequently exhibit the behaviors of an inventor, a visionary, or a dreamer. You usually think about using your finely honed — that is, sharpened — skills and knowledge in ways others have not considered.

It's very likely that you commonly welcome into your life and give your approval to a broader range of personalities than many individuals do. Your interest in people leads to discoveries about what needs to be done and what can be done in the coming weeks, months, years, or decades.

Chances are good that you are energized by your plans for the coming months, years, or decades. Bringing your ideas to life is an exciting proposition for you. You sense you have the power to transform whatever you think is possible into tangible outcomes.

How Futuristic Blends With Your Other Top Five Strengths

FUTURISTIC + STRATEGIC

You see clear images of a better future and detect the best paths leading to future dreams.

FUTURISTIC + ACTIVATOR

You know that any dreams for tomorrow will become a reality sooner if you start moving toward them with haste today.

FUTURISTIC + IDEATION

Your anticipation and imagination prompt you to dream. Comfortable with ambiguity and risk, you create new and fresh visions.

FUTURISTIC + SELF-ASSURANCE

You have a vision for your life, and when others doubt or object, it has little effect on your confidence or resolve.

Apply Your Futuristic to Succeed

Energize others with your visions of the future.

- ☐ Dedicate time to dream about what could be. You inspire those around you when you put your vision into words and share it.
- ☐ Be sure to ask people how they feel about your visions of the future. If they are worried or uncomfortable, make the picture as vivid as possible using hopeful, clear and detailed language.

STRATEGIC THINKING

2. Strategic®

What Is Strategic?

People with strong Strategic talents can sort through the clutter to find the best route. You can't teach this skill. It is a distinct way of thinking — a unique perspective on the world at large. This outlook allows them to see patterns where others see complexity. Mindful of these patterns, they envision alternative scenarios, always asking, "What if this happened?" This recurring question helps them see, plan and prepare for future situations. They see a way when others assume there is no way. Armed with this strategy, they move forward.

Self-Assurance

Driven by your talents, you easily enter into dialogue with others. When you have an idea, the right words, stories, or examples quickly come to mind. The animated give-and-take of debates stimulates your thinking. Often you gain the advantage by emphasizing irrefutable — that is, cannot be disproved — facts to support your key arguments. Victory for you means having the final word.

It's very likely that you can design innovative plans. You probably raise issues and identify recurring obstacles as you generate tactical options. Problems and possible solutions become apparent to you. Once you outline action steps, you quickly execute them one by one. You refuse to waste time questioning your ideas after everything has been set into motion.

Instinctively, you have acquired valuable skills and knowledge. You spend time considering numerous courses of action before choosing one. You invent original and innovative techniques for dealing with expected and unexpected challenges. You use the same approach to take advantage of promising opportunities.

By nature, you are much more innovative when you have ample time to process ideas. As long as you are not pressured to think fast, you can generate many original proposals, alternatives, or tactics for the coming months, years, or decades.

Chances are good that you select the right combination of words to convey your ideas or feelings. In the middle of discussions, your vocabulary provides you with precise phrases and terminology. You probably express yourself with ease and grace.

How Strategic Blends With Your Other Top Five Strengths

STRATEGIC + FUTURISTIC

You see clear images of a better future and detect the best paths leading to future dreams.

STRATEGIC + ACTIVATOR

Your urge to take action as soon as possible is complemented by your urge to consider all possible courses of action.

STRATEGIC + IDEATION

When you need to do something or get somewhere, you consider all possibilities. If none seem right, you create a new one.

STRATEGIC + SELF-ASSURANCE

Confident of your abilities and aware of all the possibilities, you usually know where you want to go and how to get there.

Apply Your Strategic to Succeed

Think ahead to gain perspective.

- ☐ Take time to fully plan your path forward. While you easily see patterns where others see complexity, it is important to make time to envision these alternative scenarios.
- ☐ Practice explaining your decision-making process before talking with others. Doing this ensures people know you have considered different options and opinions to inform your decision.

INFLUENCING

3. Activator®

What Is Activator?

"When can we start?" This is a recurring question for Activators. People with strong Activator talents are impatient for action. They may concede that analysis has its uses or that debate and discussion can occasionally yield some valuable insights, but deep down they know that only action is real. Once a decision is made, they must act. Others may worry that "there are still some things we don't know," but this doesn't seem to slow Activators down. They make a decision, take action, look at the result and learn. The bottom line is this: Activators know they will be judged not by what they say or what they think, but by what they get done. This does not frighten them. It energizes them.

Why Your Activator Is Unique

Ideation

Self-Assurance

Instinctively, you boost others' spirits each time you refer to a memorable event, experience, or thought they shared with you. You sense, more than most people do, that human beings feel affirmed and valued when someone stops and listens to them. You do that for others. Because you are so attentive to what individuals say, you can engage them in a conversation about their key ideas or feelings at that moment and even hours later.

By nature, you energize others so they feel enthusiastic about a position you have taken, a conclusion you have reached, or an innovative idea you have proposed. As soon as you resolve to do something, you typically announce, "Let's get started right away. We can do this!"

It's very likely that you generate enthusiasm so people become as eager as you are to transform an idea into something tangible. You are energized, not paralyzed, by opportunities and possibilities.

Because of your strengths, you intentionally show your approval of an individual by referring to interesting points the person made during a conversation or presentation. You frequently convince people you value them by paying very close attention when they speak.

Chances are good that you trust your expertise and knowledge of special topics to guide your decision-making. You act quickly when your choices directly relate to your areas of mastery and past success.

ACTIVATOR + FUTURISTIC

You know that any dreams for tomorrow will become a reality sooner if you start moving toward them with haste today.

ACTIVATOR + STRATEGIC

Your urge to take action as soon as possible is complemented by your urge to consider all possible courses of action.

ACTIVATOR + IDEATION

You know that the best ideas are those that are converted into action, and the best actions are those that are informed by creative ideas.

ACTIVATOR + SELF-ASSURANCE

Some find confidence and certainty through trial and error. You act quickly because you are naturally confident and certain.

Apply Your Activator to Succeed

Be the person who helps others take action to succeed.

- ☐ When you see someone do something excellent, tell them right away. This positive reinforcement of their actions can help motivate them to repeat what they did.
- ☐ Remember that not everyone is as ready as you are to jump into action. Make sure those around you are prepared to act so they can meet your energy with excitement instead of fear.

**STRATEGIC THINKING**

4. Ideation®

What Is Ideation?

People with strong Ideation talents are creative and appreciate originality. They relish free-thinking experiences such as brainstorming and discussion groups. They have a natural capacity to consider issues from multiple perspectives. They revel in taking the world we all know and turning it around so people can view it from a strangely enlightening angle. They think outside the box. They are fascinated by new ideas and concepts, which come to them easily. They love ideas because they can be profound, they can be novel, they can be clarifying, they can be contrary, and they can be bizarre. For all of these reasons, they derive a jolt of energy whenever a new idea occurs to them.

Why Your Ideation Is Unique

These Strengths Insights are personalized based on your CliftonStrengths results.

Futuristic**Strategic****Activator****Ideation****Self-Assurance**

Because of your strengths, you have been described as someone who reads a lot. You probably carry reading material with you just in case you have to wait in line, eat alone, or sit beside a stranger. Because the printed word feeds your mind, you frequently generate original plans, programs, designs, or activities.

Instinctively, you are highly knowledgeable about special topics and activities. This explains your natural inclination to invent innovative and unusual ways of performing tasks. You grow bored when forced to follow the same series of steps day after day. Your boredom is likely to become frustration when your suggestions for change are dismissed without further consideration.

It's very likely that you make time and seek places for quiet reflection. You probably examine new theories and concepts. You are impelled to acquire more information. This satisfies your deep-seated need to educate yourself. When you concentrate without interruption, you usually make discoveries and establish links between facts.

By nature, you engage life with gusto. Bursting with creativity, you approach assignments, tasks, projects, opportunities, or problems. You like to take the innovative path rather than follow the traditional and tried-and-true ways of doing things.

Driven by your talents, you recharge your mind by creating ideas for new projects. This occurs even before you have completed your current assignment. You are happiest when you can hand off your unfinished work to others. You are like a surgeon who performs the operation but asks a competent assistant close the patient's incision. You have ways of freeing yourself to think about your next project.

**INFLUENCING**

5. Self-Assurance®

What Is Self-Assurance?

Self-Assurance is similar to self-confidence. People with strong Self-Assurance talents have faith in their strengths and abilities. They know that they can take risks, meet new challenges, stake claims and, most importantly, deliver. But Self-Assurance is more than just self-confidence. People with dominant Self-Assurance talents have confidence in both their abilities and their judgment. They have an inner sense of certainty that affirms their direction and decisions.

Why Your Self-Assurance Is Unique

These Strengths Insights are personalized based on your CliftonStrengths results.

Futuristic**Strategic****Activator****Ideation****Self-Assurance**

Because of your strengths, you choose to associate with people who think big and think smart. Exchanging ideas, concepts, or theories with intelligent individuals exhilarates you. You pull together as many thoughts as possible from these animated conversations. You never know when someone's question or suggestion will be valuable. You mentally file away or physically document these snippets — that is, small bits — of insight or wisdom for easy retrieval.

It's very likely that you talk with others to clarify grand and impressive ideas. You want to understand complex topics, issues, plans, opportunities, or processes. When necessary, you seek the companionship of other thinkers. You naturally gravitate to individuals who have a reputation for generating novel schemes and asking insightful questions.

Chances are good that you often take part in thought-filled conversations with your colleagues or classmates. Together, you sift through possibilities. You assess the pros and cons of each person's innovative theories, suggestions, or proposals. During these verbal exchanges, ideas expand, narrow, and take on new forms. You thrive in settings where everyone feels safe thinking out loud.

Instinctively, you have great fun exchanging large-scale thoughts and opinions with your colleagues, associates, coworkers, or fellow students. These animated conversations allow you to refine your thinking and test your ideas.

By nature, you exhibit an awareness about what you do and do not do well. You trust your instincts in this regard. Over time, you have progressed faster and moved further by relying on your talents. You simply refuse to risk losing confidence in yourself by tackling assignments for which you lack the talent, even when you may possess some relevant knowledge, skills, or experience.
